

# BIODEFENSE TEST KITS

## **Water/Food/Diary/Hygiene/Environmental Microbiological Analysis Kits**

**Water Analysis Kit (Presumptive Test)** (to enumerate the coliform count from a sample of drinking water/swimming pool/ice cubes/waste water)

**Water Analysis Kit (Confirmatory Test)** (to enumerate the coliform count from a sample of drinking water/swimming pool/ice cubes/waste water)

**Food/Diary/Quality Assurance Kit** (to detect, plate count Coliform E-Coli, Yeast, Mold count from any food sample)

**Food Poisoning Detection Kit.** (to detect food poisoning causing bacteria from any food sample which includes Salmonella, Streptococcus and Staphylococcus)

**Personal Hygiene Kit.** (to detect Staphylococci count, E-Coli from the hands, nails, nasal cavities)

*New Biodefense Kits are under research and development*
